Unit 1 Settlement Patterns--------Standards Based Rubric						
Standards Addressed	**G.A.2** Understand the vocabulary and concepts of spatial interaction, including an analysis of population distributions and settlements patterns. **H.A.2** Analyze the geographic, economic, social, and political factors of New Mexico that impacted United States and world history, to include: Urban development					
Learning Topic: Describes information that should be learned	**Level of Understanding**					**Artifact(s):** What did you do to show your understanding?
	4.0 **Beyond**	**3.5** **Complex (Taught)**	**3.0** **Simple (Taught)**	**2.0** **Approaching**	**1.0** **Basic**	
LT 1: Analyze the geographic, economic, social and political factors that impact settlement patterns including urban development. G.A.2	I can demonstrate learning that goes beyond what was taught.	I know all of the 3.5 Complex content. --*Students can list and explain factors that affect settlement patterns and can categorize and explain how they are related to geographic, economic, social, and political factors.*	I know all of the 3.0 Simple content: foundational knowledge, simple procedures, and vocabulary. --*Students can list settlement factors and can recall/match simple connections of where people choose to live in relation to geographic, economic, social, and political factors.* *Key Vocabulary: Urban Development, Geographic, Social, and Political*	*With help,* I know some of the 2.0 Simple content, but still don't understand the 3.0 Complex content.	Attempted the Problem	
LT 2: Understand that there are many factors that affect spatial interaction including; population distribution and settlement patterns. H.A.2	I can demonstrate learning that goes beyond what was taught.	I know all of the 3.5 Complex content. --Students can summarize the many factors that impact spatial interaction and create a diagram that shows the possible consequences that can exist. Students will then be able to hypothesize past, present, and future outcomes of settlement patterns and their results.	I know all of the 3.0 Simple content: --Students can explain population distribution and settlement patterns. They can also recall some of the factors that impact settlement patterns and recall some of the possible outcomes.	*With help,* I know some of the 2.0 Simple content, but still don't understand the 3.0 Complex content.	Attempted the Problem	
Overall Understanding Of Standard	I know all learning topic at a 4.0 level. Lowest score is a 4.0	I know all of the learning topics at a 3.5 Complex or above level. Lowest score is a 3.5 for any learning topic	I know all of the learning topics at a 3.0 Simple or above level. Lowest score is a 3.0 for any learning topic.	I have an area or two that I need to re-do and re-evaluate. To bring up my learning topic scores.	I am having a hard time, see me for tutoring.
