

What's in a Name?

Exploring the Geography of New Mexico

Directions: Look at the town name and where it is located on the map along with any other research that might be helpful. Once you feel like you have enough information, create a hypothesis for why the town is named the way it is based on your findings. Once you have done that cite your evidence to support your theory!

Once complete save and email the project back to me!

Town	Hypothesis	Cite Evidence
1. Los Pinos		
2. Bosque Redondo		
3. Portales		
4. Tres Piedras		
5. Silver City		
6. Corrales		
7. Lumberton		
8. Las Tablas		
9. Rio Puerco		
10. Bluewater		
11. Sierra Grande		
12. La Jara		
13. Alamogordo		
14. Chamizal		
15. Placitas
